

FIVE MORE HAVE DIED

Four Suspects Now On
the List.

MRS. BOARDMAN'S CASE

Sheriff Andrews in Trouble With the
Health Board Because of
Usurpation of Power.

(From Monday's Daily.)

DEATHS SATURDAY.

- Lun Wing Sing, male Chinese, aged 40 years. Found dead in a street back of Kaimakapili Church in quarantine district. Diagnosed as bubonic plague.
- Makaena, male Hawaiian, aged 38 years. Died at Moanalua, in vicinity of Minister Damon's place, and near Protestant Church.
- Kala, Hawaiian girl, 13 years old. Died in cottage at Kewalo on the Peck premises. Autopsy held yesterday morning showed death caused by plague.

DEATHS YESTERDAY.

- Kauohi, male Hawaiian. Second oldest excavator driver who was sent to Kakaako pest hospital last week as a suspect.
- Kaueha, male Hawaiian, aged 18 years, died at Kakaako pest hospital at 9 o'clock last night.
- Bubonic plague. This was the member of the National Guard who was stricken on Wednesday last. Cremated.

The Chinaman found dead in the street on Saturday morning and later pronounced a plague victim furnishes another instance of the concealment of sickness which the Chinese practice despite repeated warnings from the Board of Health and from some of their own enlightened countrymen. This Chinese, assisted by another Celestial, was trying to leave the doomed district between Kaimakapili Church and the riverfront. Both were discovered and stopped by Dr. Pratt, who at once gave his attention to the sick man. The latter lived only five minutes after the episode and his body was once removed to the morgue, where an autopsy was performed, resulting in the announcement as above.

The companion of the plague victim disappeared in the excitement and hid himself away in another section. Dr. Pratt tracked the man and sent him to the guard-house. The military authorities, however, did not want him, fearing he, too, was infected. He was later sent to the detention station.

The second death was that of the Hawaiian at Moanalua, near Minister Damon's country house. The body was brought in to the morgue, an autopsy held and another plague death was added to the rapidly increasing list. Yesterday morning Executive Agent Reynolds went out to the premises under order of the Board of Health, and burned the two-story house in which the man died. A two-story house next door was also included. The church standing near by was threatened at times, but happily did not catch on fire.

Kala, the Hawaiian girl removed from one of the Peck cottages just made of the Cyclone at Kewalo, was brought to the morgue late Saturday night. The autopsy showed swellings under the arms in the axillary glands. The history of the girl's sickness shows that she has been ill more or less with fever for about two weeks. The girl's brother, Kamakauwahine, has become very sick and was removed yesterday to the pest hospital as a suspect. He is 16 years old and for some time past has been at work as a helper on one of Mr. Peck's drays; but Mr. Peck says he has not been engaged in handling any of the goods from Chinatown.

The case of Kauohi, who died yesterday morning, has brought the Board of Health face to face with a serious problem in its odorous excavator work. The man was the second driver to be sent to the hospital in the same week. The body, upon post-mortem examination, showed strong evidences of the plague.

Kaueha, the National Guardsman who was stricken at the barracks of the Executive Building on Wednesday last, died last night at 9 o'clock. An autopsy was immediately held, and it was pronounced a plague case. The body was sent to the crematory shortly after the autopsy. Both the odorous excavator driver and the soldier were sent to the hospital on the same day and both died yesterday.

The Plague Situation.

The plague situation yesterday was considered more serious than any other time since the commencement of the outbreak, and the Board of Health is under a heavy strain to find additional means to stamp it out. Had it been confined to the Chinatown district entirely they would be in a position to cope with the disease. As a result of the lifting of the quarantine the disease has had an opportunity to spread, and deaths and suspicious cases are now cropping out in nearly every section of the city, but most of these outside cases have been confined to the Hawaiian and Chinese residents.

A Spaniard, who was found lying sick on Saturday in the vicinity of the kerosene warehouse, was removed to

the pest hospital. Yesterday his condition was reported as very serious and his death hourly expected. That he has the plague is undoubted. The man originally came from a Portuguese lodging-house, between Queen street and the warehouse, and guards were at once thrown around the place. Many workmen who lodge in the house were allowed to go in when they returned from their day's work, but are now compelled to remain inside. In the pest hospital seventy-seven people are quarantined pending their removal to the detention camp.

Mrs. Boardman's Case.

One of the most serious suspected cases of plague reported at the Board of Health yesterday was that of Mrs. George Boardman, who is in charge of the art department at Jordan's dry goods store on Fort street. After a long consultation yesterday morning in which several physicians took part, it was decided that the unfortunate woman showed symptoms of the plague, and President Wood had guards posted around the residence premises of Mrs. Boardman, above Kinau street, near Kapiolani. The announcement of plague symptoms developing in Mrs. Boardman caused a feeling of apprehension to spread over the city.

As far as could be learned, the cause has been laid to rats, several of which are said to have been found in Jordan's store. Whether Mrs. Boardman came in contact with the rats or not is unknown, but her symptoms, it is said, are traced to the rodents. Two nurses are in attendance on Mrs. Boardman, while the physicians keep a watchful eye upon every movement of the patient. The community was shocked beyond measure upon hearing the alarming news and scant hopes are expressed that the disease in Mrs. Boardman's case can be checked. Until some change for the worse takes place Mrs. Boardman will remain in her residence.

Alho's Premises Destroyed.

The Fire Department yesterday forenoon swept with fire the Alho row of tumbled-down structures, and also the frame shacks down to the brick buildings on Nuuanu street. The Alho premises were the first burned, and were entirely destroyed within an hour. The second fire occupied the attention of the department for nearly two hours, and no damage was done to surrounding buildings. By this action of the Board of Health every frame shack from Chaplain lane to the brick buildings making of Hotel street has been removed.

Today, the Union Square block will be burned, everything being in readiness to apply the torch. All the residents have been removed and household property from the houses not directly infected has been taken to a place of safety. The block will be burned this forenoon.

All the residents of block 9 bounded by Beretania, Maunakea, Pauahi and Smith streets, directly Ewa of block 10 have been removed and this will be the next conflagration.

Board of Health Meeting.

The Board of Health met Saturday afternoon at 2 o'clock to consider the report of the Sanitary Committee. President Wood occupied the chair; those present were Attorney General Cooper, Drs. Day and Emerson, George W. Smith and F. M. Hatch. Attorney Robinson was also present as the legal adviser of the Board.

Many important changes and revisions in the sanitary report were made, the legality of many features being considered at length. This work occupied the attention of the Board most of the afternoon.

Mr. Smith moved that the Minister of the Interior be requested to erect a building on the grounds of the Judiciary Building facing on Queen street to be occupied by the Government Dispensary. Mr. Cooper stated there was a probability of the Judiciary Building being enlarged at some future time, and a new building would be in the way. The recommendation prevailed.

President Wood reported on the Wing Wo Chan building on Nuuanu street and the Board ordered the building to be allowed to open for business, with the rear doors and windows to be sealed.

Dr. Emerson reported on the military fumigation station. The Minister of Foreign Affairs was authorized to proceed with the work.

George R. Carter recommended a complete embargo on freight from Honolulu to the other islands. The matter was laid over.

At this juncture Captain Clark of the Kinau, which had just arrived from Hilo, was announced. The Captain stated that he had been turned back from Hilo by Sheriff Andrews without being allowed to land a passenger or discharge any freight. Neither would the Sheriff permit the Captain to refill his fresh water tanks although there were two full tanks on the shore. The Sheriff had boarded the Kinau as he lay in the offing, and peremptorily and absolutely refused any communication with the town, and ordered the vessel to return to Honolulu. After giving his ultimatum the Sheriff went ashore taking the mails. Two Japanese contract laborers from the Maui were transferred to the Kinau, and the vessel made all speed for Honolulu.

Upon hearing this news, the Board collectively and individually made expressions in regard to the Sheriff's arbitrary and unreasonable conduct, detrimental to the latter's interests, and upon motion of Mr. Smith the Board passed the following motion: "I move that Mr. Cooper be empowered to go to Hilo on the Kinau to act with the full authority of the Board in all matters concerning the Board."

Sheriff Andrews Dealt With.

A motion was also passed by which the Sheriff's commission as agent of the Board of Health was cancelled, and a letter to the Sheriff announcing the Board's action was given to Attorney General Cooper for delivery to the former, as follows:

"Sir:—I beg to inform you that at a special meeting of the Board of Health held this day, your commission as Agent of the Board of Health for the island of Hawaii, was cancelled.

President Board of Health.

Captain Clark said the Kinau could be ready for the return trip to Hilo before midnight, and at 11:15 the Kinau again sailed.

Attorney General Cooper is presumed to have gone to Hilo in the Kinau, as he is Attorney General and a member of the Board of Health. After the Board meeting Mr. Cooper and his personal conference with President Wood, Minister Young and Marshal Brown, and the general feeling in the city, Mr. Andrews' official head as Sheriff of Hawaii will fall into the hands of the Board of Health.

It is reported that the Sheriff following the regulations of his most wonderful By Authority, which is found elsewhere in this issue, went so far as to dump all the Chinese and Japanese mail on the ground and deliberately destroy it by fire. Some American mail is said to have been included. Postmaster-General Oat said he had heard the rumor, but had not been officially notified. He stated it was a serious matter. One of the Sheriff's ridiculous regulations was to have each letter opened at the window and the envelope was then destroyed by fire, the Sheriff having passed a regulation that none of the sputum from the island of Oahu would be allowed in Hilo or Hawaii. Many of the citizens were indignant that such regulations should be put in force, and delegates from various parts of the island are understood to be heading for Hilo to present against his actions. When the Kinau arrived at this port she had only five gallons of fresh water left.

Drastic Measures.

The Board of Health may pass a resolution today by the terms of which the entire city of Honolulu will be divided into sub-districts, each under a head inspector with sub-inspectors under him, and people prevented from passing from one section into another following the same course of action pursued in the cholera epidemic. This will work a hardship in every department of business, but from now on the Board's policy will be to take no half way measures in stamping out the disease. The street car lines would of necessity be stopped.

L. A. Thurston is now in charge of placing guards around infected houses, assisting the history of cases and enforcing order, sickness. Judge C. F. Peterson is assisting him in this work. S. M. Ballou also will aid in this work from today if the Circuit Judge does not insist on holding court. So many cases of sickness are reported that a large force is absolutely necessary for the work.

Judge Carter is about worn out with his duties and has gone to Waikiki to recuperate.

The Board of Health will undoubtedly issue a call for more volunteer inspectors, realizing their work over the paid inspectors, who are in general irresponsible men. More physicians are also needed. The physicians now on duty are kept on the jump constantly and many cases of sickness lack attention from want of medical assistance. More of the large force of physicians of Honolulu should volunteer their services at this critical stage of the plague, as the disease is spreading fast and in so many different sections.

J. A. Kennedy has taken Mr. Thurston's place in pushing the construction of the Kalihi camp. The carpenters yesterday received double pay.

Work was commenced early yesterday morning on the military fumigation plant and the frame work was raised by nightfall. The buildings are located on the open space Ewa of the drill shed and almost adjoining the Adams property. Estimate of the cost is now placed at \$7,500.

The Board held an executive session yesterday morning. Jack Atkinson has succeeded Mr. Galt in charge of the Kerosene warehouse camp, where the pest cases are quarantined. At the Battery camp 600, and at Kalihi 600 more are housed. By tonight there will be accommodations at Kalihi for 1,200 more.

The following letter from Sheriff Andrews to a gentleman in this city, is indicative of the former's intention to proclaim himself superior to the Board of Health's cautious judgment:

"We are now receiving no passengers from Honolulu for ten days as per regulations published in Hilo Herald this day. Jan. 10th.

"After Jan. 19, we may receive passengers on eight days' quarantine here or we may continue to refuse them permission to land, it will depend upon circumstances. I am sorry that I have to be so severe.

Yours truly,

L. A. ANDREWS,

Sheriff of Hawaii.

A very suspicious case was brought to light on King street last night near the river; that of an old Chinese woman, who was removed to the pest hospital. Hers was the most serious case found during the day.

Parker Goes Back.

Colonel Sam Parker writes as follows to a friend in this city under date of January 2: "I am off this evening for Washington. I had fully expected to go home on the steamer of the 16th inst. My friend Senator Clark and other friends came enquiring from Washington on a special mission and were to go back last evening, but they waited another day for me, so I am off and will be back to take the steamer on the 24th, and will bring good news home, I hope."

HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with the prompt action.—South Chicago Daily Calumet. For sale by all druggists and dealers. Benson, Smith & Co., Ltd., agents for H. I.

The Americans are beginning a new campaign in Southern Luzon. Charles E. Pike, one of the founders of the Republican party, is dead.

General Wheaton has returned to Manila and is concentrating troops.

Sick Headache

Is the cause of untold suffering to many women; of neglected families and unhappy homes. Pleasure is banished from the life that is subject to these attacks, and yet it is possible to be free forever from such trying ordeals. Dr. Williams' Pink Pills for Pale People, by enriching the blood, toning up the nerves, and strengthening the stomach, make sick headache impossible, and restore nervous energy to the despondent sufferer. The full name:

Dr. Williams' Pink Pills for Pale People

is on every package of the genuine.

Mrs. Fannie B. Stoffe, of Martinsville, Mo., says: "I used to have terrible sick headaches, which I had as far back as I can remember. In recent years they were getting worse. A few years ago I took treatment of a specialist in Kansas City, but it only relieved me for a while. When I came here two years ago my health was miserable. My husband, who had great faith in Dr. Williams' Pink Pills for Pale People, insisted that I commence using them. After taking a few doses I could see an improvement, and my headache spells were not so severe. I used four boxes, and since that time I have not had any of those attacks, and I never felt so well in my life."

—From the Republican, Bethany, Mo.
No discovery of modern times has proved such a blessing to mankind as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health in the exhausted patient when every effort of the physician proves unavailing.
These pills are sold in boxes at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams Medicine Co., Schenectady, N.Y.
